

# So You Heard Parking Meters are Coming to Rye.

## You Probably Have Some Questions.

In July 2005 the City of Rye will be installing pay stations in the Central Business District (CBD). This flyer provides answers to common questions.

### **What areas of the City will be metered?**

Only off-street parking areas will be metered (see figure below). There will **NOT** be any meters on Purchase Street or any other side street in the CBD.

### **What are the hours of operation and rate?**

Short-term users will be required to pay for parking Monday through Saturday from 9:00 a.m. to 6:00 p.m. The rate will be \$0.25 per 30 minutes.

### **How long can you park?**

There is no change proposed in current restrictions. Off-street parking will remain limited to a maximum of 2 hours. On-street parking will remain limited to 1 hour. These restrictions will continue to be enforced by the City's Parking Enforcement Officers.

### **Will merchant parking change?**

No. Merchants will still be required to obtain merchant permits from the City Clerk if they need to park for more than two hours. Merchants with valid merchant permits will not be required to pay at the pay stations.

### **Will commuter parking change?**

No. Commuters will still be required to obtain permits and be restricted to designated commuter parking lots.

### **What type of meters will be installed?**

The City has acquired 10 pay-by-space pay stations (see figure below). These pay stations will be strategically located throughout the CBD.

### **How will the pay stations work?**

Each parking space in the off-street parking lots will be numbered. Users will walk to the pay station, enter in their parking space number and pay the required fee. A receipt will be printed (which user should keep). Users will **NOT** be required to return to their vehicle to display proof of purchase on their windshield. Unlike traditional coin-operated meters, users will be able to pay for parking with either coins or bills at any of the 10 pay stations in the CBD. The pay stations will not provide change.
